PROFESSIONAL SUMMARY

Senior Salesforce Developer with 8+ years of experience designing and delivering enterprise-scale solutions across banking, healthcare, e-commerce, media, and legal. Proven ability to ramp quickly across diverse business domains, translating complex requirements into scalable Apex, LWC, and Flow architectures. Track record of technical leadership — mentoring development teams, enforcing clean-code standards, and driving cross-functional delivery in Agile environments. Experienced in architecting complex integrations (REST/SOAP, OAuth 2.0) and leveraging AI-augmented development workflows to accelerate velocity and code quality.

PROFESSIONAL EXPERIENCE

Salesforce Developer

Jan 2026 - Present

Banco de Crédito del Perú (BCP) | Peru

- Architect and develop high-scale banking solutions ensuring robust security and scalability.
- Refactored and customized legacy codebases, significantly reducing technical debt and improving performance.
- Enforce code quality and enterprise standards by leading comprehensive Pull Request (PR) reviews.
- Designed external integrations utilizing best practices, REST APIs, and Secure Named Credentials.
- Proactively aligned current system architectures with upcoming Salesforce Release Updates to prevent business disruption.

Salesforce Developer

Aug 2025 - Jan 2026

Clínica Alemana (CAS) | Chile (Remote)

- Successfully implemented third-party integrations with SharePoint and WhatsApp (Meta API).

- Designed and built modern, high-performance Lightning Web Components (LWC) tailored to core business processes.
- Engineered structured and highly scalable Apex Endpoints leveraging the Strategy Design Pattern.
- Customized org architecture including validation rules, advanced flows, custom objects, and fields following strict clean-code principles.

Salesforce Developer

Apr 2024 - Jul 2025

Globant — IDB (Inter-American Development Bank) | Peru / Remote

- Developed specialized Apex logic and custom flows for automated legal operations and enterprise data management.
- Provided high-tier production support resolving complex technical tickets with direct client interaction entirely in English.

Salesforce Developer & Technical Leader

May 2022 - Apr 2024

Globant — Mercado Libre | Peru / Remote

- Led and mentored a high-performing team of Salesforce developers, ensuring on-time sprint delivery for Latin America's largest e-commerce platform.
- Bridged business requirements with technical execution, managing Jira delivery and stakeholder alignment across multiple squads.
- Spearheaded automation of complex business logic using Apex and advanced Flow architectures for marketplace operations.

Salesforce Developer

Mar 2023 - Jun 2023

Globant — ME Elecmetal | Peru / Remote

- Led regional Salesforce deployment and data migration for the North American manufacturing rollout.

Salesforce Developer

Jul 2019 - Mar 2022

Globant — Disney ABC M360 | Peru / Remote

- Developed custom business logic with Aura Components and implemented real-time notification systems for media operations.
- Enhanced core Apex functionalities and revamped UI components, improving end-user experience for global enterprise workflows.
- Automated marketing and operational workflows using Pardot and Flow Builder, streamlining cross-team campaigns.

Salesforce Technical Consultant

Jun 2019 - Jul 2019

AVANXO | Peru

- Delivered critical Apex optimization and provided technical mentorship/training to enterprise users.

Salesforce Developer

Sep 2018 - Jun 2019

CloudCreations - SERTPRO 360 | Peru

- Executed end-to-end data migrations and object customization for onboarding clients.
- Built secure REST/SOAP integrations utilizing OAuth 2.0 authentication protocols.
- Created executive-level dashboards and analytical reports to drive business intelligence.

Software Developer

2016 - 2018

Industria Arrocera de América | Peru

- Developed and maintained ERP systems with accounting integration modules using .NET.
- Optimized internal data workflows, reducing manual processing time for financial reports.

Software Developer

2016 - 2017

Universidad Juan Mejía Baca | Peru

- Implemented and customized Moodle-based virtual learning environments for academic programs.
- Developed system enhancements for internal academic management, streamlining student and faculty operations.

Software Developer

2016

Colegio CIMA | Peru

- Built a custom intranet portal and file management system using PHP.
- Digitized document workflows, improving file accessibility and collaboration across departments.

SKILLS

SALESFORCE ECOSYSTEM

Apex (Triggers, Async Apex, Batch, Controllers)
